# New Performing Arts Fund and **Musicals Through the Years** Recognition Opportunity

For more than four decades, Carey's Senior School Musicals have been an essential part of our school's cultural fabric, bringing students together in a shared celebration of creativity, talent and collaboration.

From our first production of *The Gondoliers* in 1985, to today's dynamic performances, these musicals have played a transformative role in the lives of countless students, inspiring confidence, camaraderie and artistic excellence.

We are proud to unveil a new permanent art installation in the entryway of Memorial Great Hall, celebrating over 40 years of Senior School Musicals. Families have an opportunity to join in this celebration by making a gift to Carey's new Performing Arts Fund.

## Your Impact

Carey's Performing Arts Fund is dedicated to sustaining and enhancing the performing arts experience at the School. This special fund will exclusively support performing arts-related activities at Carey. This includes musical productions and needs-based bursaries.

By giving to Carey's Performing Arts Fund, you can help nurture future generations of students, providing them with life-changing opportunities.
